who really knows Network Marketing AND Nutrition,
Brenda is a true asset to her team!

WHO IS BRENDA WOODWORTH?
...aka the "nutrabuzz lady"

BRENDA AND HER HUSBAND BILL

"Hi, my name is Brenda Woodworth and my husband, Bill and I are thrilled to be a part of the Chews-4-Health business. I love discovering real gems when it comes to natural nutrition and great opportunity - that's exactly what Dr. Friedman has presented us here with. The product and the marketing together, spells 'No Brainer' to me."

Brenda has been with us since the days of soft pre-launch and has built a strong team of like-minded individuals. Although she works as an RN, she is well-known and highly respected in the MLM Industry as a Leader and skilled

A special note from Brenda:

We've been involved with [Chews-4-Health](#) since the very first days when the product was still a mystery. I just knew that if Dr. Friedman had formulated his own product ... it would be good. Well, it's absolutely GREAT. He's definitely put the 'best of the best' ingredients in this chewable! Bill and I have four boys and I have to say, each one of them loves Chews! This speaks *volumes* to me. The simple fact that these chewables taste so good and are so convenient to take, has made it very easy for all of us to chew them EVERYDAY since day one! What a simple way to get these important nutrients consistently. Having been an RN in the clinical setting for many years, I have always known the HUGE role that nutrition plays in a person's well being. I think that you would agree that is much easier to support our health NOW, than to deal with it later, when it's all said and done. Chews-4-Health is the EASIEST way I know how to do that. Now, kids AND adults can help fill in those 'nutritional gaps.' The unique marketing of Chews-4-Health eliminates many of the common

internet marketer. Her presence across the world wide web works for her 24/7 while she enjoys being a Mom to 4 boys! (So you thought YOU have a full-plate?)

Brenda has some fantastic web design talent and has utilized the power of the internet including video marketing among other things. Her videos are simply the BEST I have seen and she just keeps amazing me and our team with her creative ability!

'pitfalls' of traditional network marketing. The exclusive National Co-Op Marketing will catapult Chews to become a household name as the message reaches millions of people across the nation. Whether you participate in the co-op or not, even the least experienced person can come on board with us and benefit from this NCM.™ We live in Northern Colorado and we really look forward to sharing Chews-4-Health with everyone. With network marketing, there are NO boundaries to limit us from touching numerous lives through good friendships, better health and extra income. You tell me, who wouldn't benefit from any of these?

It's my belief, that the simple things in life give us the most joy. Good health and meaningful relationships with the freedom to enjoy both. With the support of Bill, myself and the Zillion Wishes Leaders, we invite you to join us, in having fun and success, while we build this incredible business together.

Get Excited!
